Rib-Mesh Transferred Electronic  
Jacquard Knitting Machine(Multi-Feeder)

羅紋移圈電子選針多口數大提花圓筒針織機 PL-KRT2.5CJ

## Products Introduction

K-Series is the product of accumulation from many years of research, developments and manufacturing experiences. Also combined with actual operating parameters from end users. Many detailed elements and parts are upgraded to meet the high requirement from current market standard.

Since the development of its first electronic transfer jacquard machine, Pai Lung has been committed to upgrading products for the highest possible performance and quality. Now we have developed a strong technical knowledge in the research and development of knitting machines. This series includes:

- PL-KRTCJ Rib-mesh transferred electronic jacquard knitting machine.
- PL-KRNCJ Eyelet electronic jacquard knitting machine.
- PL-KRTCJ/DJ Rib-mesh transferred & eyelet electronic jacquard machine.
- PL-KRTCJ/DJ/CS6 6 color striper rib-mesh transferred electronic jacquard knitting machine.
- PL-KRT2.5CJ/DJ Multi feeder rib-mesh transferred electronic jacquard knitting machine.

This series design is equipped with two tracks of cams on dial and the pizeo needle selection system on the cylinder which is able to create full jacquard patterns on the fabrics. It can overcome the pattern range limited by the mechanical jacquard system. Pai Lung also offers a powerful design software – Pandora for easy pattern design and revision. It can quickly change design patterns for jacquard machine knitting preparation.

This series design is equipped with two tracks of cams on

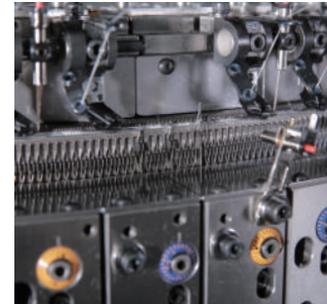

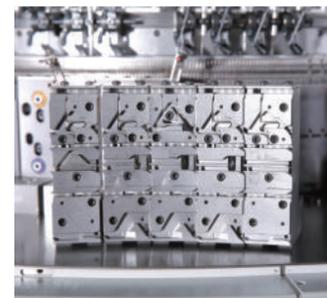

dial and the pizeo needle selection system on the cylinder which is able to create full jacquard patterns on the fabrics

PL-KRTCJ rib-mesh model principally uses three feeders as a transfer unit by clipper action to produce full jacquard patterns, rib and mesh plaiting jacquard. In certain design elastic yarn plaiting can create 3 dimension or links-links effects on the fabrics for ladies lingerie.

PL-KRNCJ is another model with double pereline and needle selection on the cylinder. Generally, five feeders are set with one knitting unit to create the eyelet performance. This model can make unique single knit and double knit with small or big eyelet pattern or both together in full jacquard style.

The combined above two models function, in addition to the full jacquard interlock model PL-KRTCJ/DJ, the most powerful model in this series, allows the customer to reach more potential markets. PL-KRTCJ/DJ/6 has 2/3 number of feeders of 6 color striper unit on machine to make transferred jacquard with striper fabrics, even with potential to add full striper units for higher production in striper specially.

PL-KRT2.5J / DJ is a new development & specification. Number of feeders is 33% higher than PL-KRTCJ / DJ. More production capacity can be provided to its users. As it is adopted the dial and multiple slots of cylinder, both clear embossed effect, single and double knit, rib-mesh with different size of holes, even different density (thickness) of jacquard fabric can be presented on fabric. Dial cam holders are adopted with user friendly SWING CAM concept Cylinder can be converted from pelerine needle or transfer needle same as the model PL-KRTCJ / DJ.

## 產品介紹

### PL-KRT2.5CJ

K系列機種為累積多年研究開發與生產製造經驗並結合業界提供實際運轉參數所衍生的新一代精良產品，其針對現階段市場之布匹品質需求，在機台諸多細項元件功能與精密度做了更進一步精進。

針對羅紋選針提花系列，秉持不斷創新的精神及堅實的專業技術，佰龍公司建立起完整搭配系列組合。依據市場及織物需求特性，可提供如下機型：

- PL-KRTCJ 羅紋移圈電子選針大提花圓筒針織機
- PL-KRNCJ 羅紋龍眼電子選針大提花圓筒針織機
- PL-KRTCJ/DJ 羅紋移圈及龍眼電子選針大提花圓筒針織機
- PL-KRTCJ/DJ/CS6 六色變色羅紋移圈電子選針大提花圓筒針織機
- PL-KRT2.5CJ/DJ 羅紋移圈電子選針多口數大提花圓筒針織機
- PL-KRN2.5CJ/DJ 羅紋龍眼電子選針多口數大提花圓筒針織機

本系列PL-KRTCJ採用上針盤兩跑道，配合下針筒壓變陶瓷選針系統，編織指定圖案之大型提花織品，該功能克服了一般機械提花有限度花形範圍之缺點，並且有效節省花形更換所花時間。機台上裝置1MB記憶體，並可依需求擴增容量。

PL-KRTCJ為表現羅紋移圈功能，基本上採用三進路為一組織單位結構，採用移圈針(transferred needle)作為提花織造。可提供移圈大提花布織造，移圈單雙面布，浮凸提花等效果；在某些提花設計下，搭配彈性紗之添加，可產生的立體感或反面布底產生相反圖案的效果，可作為文胸，女性內衣貼身織物。

PL-KRNCJ功能主要為羅紋龍眼效果，一般採用五進路為一織造單位，運用哈夫針(Pereline)及織針相互搭配。可以提供單面大小孔洞，及雙面大小孔洞的提花布。

PL-KRTCJ/DJ則是具備以上機型，移圈和龍眼提花功能互換之優點，提供客戶針對市場變化有更快速之反應。本機型並可以轉換成全口數雙面提花機(類似PL-KD1.5CJ)操作，達到一機三用的最佳效益。

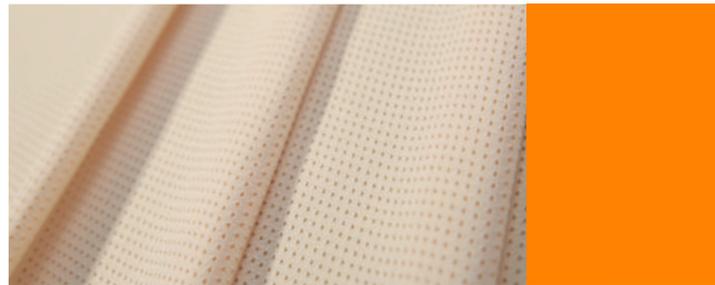

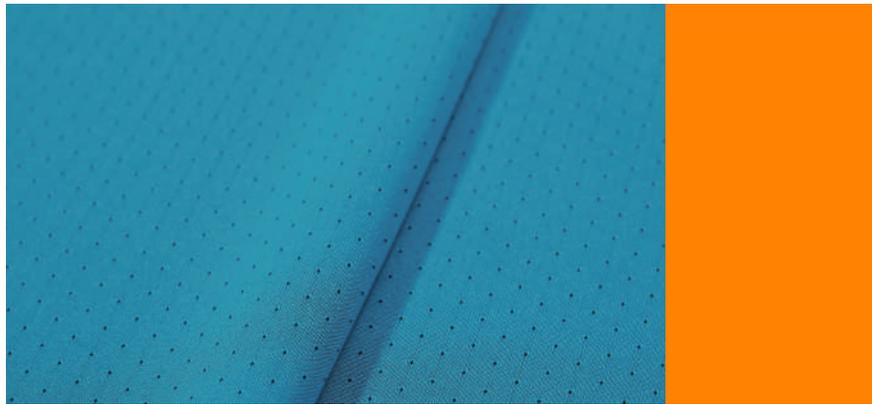

PL-KRTCJ/DJ/CS6則更添加了六色變色的功能，產生移圈彩條及提花效果；並可增加至全路數配備，織造彩條提花棉毛布，提昇產能。

PL-KRT2.5J/DJ 34" x 72F 乃是新開發機型，編織口數較PL-KRTCJ/DJ 34" x 54F增加1.3倍，因此產能提升，消費者獲益良多。同時運用上盤與下筒之倍數針筒編織更具浮凸效果、單雙面布同時呈現、羅紋移圈大小孔洞的不同密度(厚薄)之電腦提花織物上盤SWING CAM設計-操作簡易性。下圈轉換件架構-哈夫針移圈針，則相同於PL-KRTCJ/DJ 功能。

客戶可以選購佰龍電子提花機專用繪圖軟件Pandora，圖形可以自行繪製或掃描方式輸入。此軟件具備多種之繪圖功能，可快速製作及複製複雜檔案，以及利用上下左右翻轉效果，產生鏡射圖案。再經由Pandora程序之轉換輸出到機台織造指定之花色圖案，便捷快速。
